GENERAL INFORMATION
MONTANA UNIVERSITY SYSTEM

Office of Executive Secretary
Capitol Building
Helena, Montana

COVER: Clockwise from the lower left hand corner are the Administration Buildings at Montana College of Mineral Science and Technology at Butte, Eastern Montana College at Billings, University of Montana at Missoula, Western Montana College at Dillon, Northern Montana College at Havre and Montana State University at Bozeman.

THE MONTANA UNIVERSITY SYSTEM

The Montana University System is comprised of six units--University of Montana at Missoula, Montana State University at Bozeman, Montana College of Mineral Science and Technology (commonly called Montana Tech) at Butte, Western Montana College at Dillon, Eastern Montana College at Billings and Northern Montana College at Havre. Subject to the Montana State Constitution and statutes, general control and supervision of these institutions is vested in the eleven-member State Board of Education, ex officio Regents of the Montana University System. There is also a local three-member Executive Board for each institution. The immediate administration of each institution is vested in the Unit's President. An executive office and Executive Secretary for the Montana University System are located in the State Capitol at Helena, Montana for the purpose of handling administrative routine and coordination between the institutions and the State Board of Education, ex officio Regents of the Montana University System and other state offices and departments.

All Units of the Montana University System are co-educational institutions and vary in size from approximately 600 students to 7,000 students. All Units operate on a quarter basis with the exception of Montana College of Mineral Science and Technology which operates on a semester basis. A brief description of each of the Units follows. However, if a catalog is desired or there are further questions relative to cost, financial aid or specific programs, inquiries should be made directly to the institution.

ADMISSION REQUIREMENTS

To be admitted to any unit of the Montana University System a student must be 16 years of age or over, present evidence of good moral character, be a graduate of a fully accredited four-year high school in which they have completed three or four years of English, one year of American History and Government and earned a minimum of 15 high school units. Additional subjects may be required in certain specialized courses. Entering freshmen students, not residents of the State of Montana, must be in the upper 50 per cent of their high school graduating class or pass an entrance examination. An official transcript of credits is to be filed with the Registrar of the institution to be attended. Transfer students should have a grade-point average of 2.00, file transcripts of their previous college credits and present a statement of honorable dismissal from their previous school. Application blanks for admission and other required forms are to be secured from the institution to be attended and returned to them with an advance registration fee. A physical examination form is to be completed when a student has been officially accepted. Completion of ACT tests is required of entering freshmen previous to registration at all of the units except Montana State University and Montana College of Mineral Science and Technology. In most instances students are required to live in dormitories on the school campuses and room reservations with an initial deposit are to be made at least a month in advance of registration. Married student housing is available at all units. All units provide for conditional admission or admission by examination if a student does not meet the above requirements. The institution should be contacted directly for specific information in this regard.

UNIVERSITY OF MONTANA, Missoula, Montana

Robert Pantzer, President
Leo Smith, Registrar

The University of Montana was established in 1893 and today has an enrollment of approximately 6,500 students and a faculty of over 300. It is located in Missoula, a city of 43,000 on the western slopes of the Rocky Mountains. In addition to its very spacious campus and many buildings, the institution has a Biological Station on Flathead Lake and the Lubrecht Experimental Forest 25 miles northeast of Missoula. Along with other state and federal agencies it participates in the Montana-Cooperative Wildlife Research Unit. The University also has a Bureau of Business and Economic Research, a Forest and Conservation Experiment Station and a Bureau of Government.

The University of Montana is a multipurpose university having a College of Arts and Sciences composed of some twenty-nine departments in the sciences, social sciences and humanities, along with professional schools in fine arts, forestry, journalism, business administration, law, education and pharmacy. There is also an extension program, a summer session and a graduate school offering Masters Degrees and degrees of Doctor of Education and Doctor of Philosophy. Bachelors Degrees are offered in the fields of anthropology, biology, botany, chemistry, economics, English, French, geography, geology, German, health and physical education, history, home economics, latin, liberal arts, mathematics, microbiology, philosophy, physics, political science, pre-med, psychology, social welfare, sociology, Spanish, speech pathology & audiology, zoology, medical technology, physical therapy and wildlife biology. In the School of Fine Arts bachelor degrees are offered in art, drama and music including applied music, music education and theory or composition. In the Professional Schools degrees are offered in business administration, education, forestry, conservation, journalism, pharmacy, radio-television and Law.

MONTANA STATE UNIVERSITY, Bozeman, Montana

Leon Johnson, President
Miss Helen Fechter, Registrar

Montana State University was established as the Agricultural College in 1893. It is a Land-Grant College having a 1,170 acre campus and farm. The campus contains more than 30 main buildings and the institution has an enrollment of more than 6,700 students. It is located on the outskirts of Bozeman, a city of 16,000 located in the beautiful Gallatin Valley, a main gateway to Yellowstone National Park in south-central Montana.

Montana State University is a multipurpose university containing a College of Agriculture, a College of Engineering, a College of Letters and Sciences, and a College of Professional Schools. Seventy departments are contained within these colleges. A large graduate program is a part of each, offering both Masters and Doctors degrees. The University conducts a large extension and research program through the Montana Cooperative Extension Service, the Department of Continuing Education, the Endowment and Research Foundation, the Agricultural Experiment Station and its 7 branch stations, the Engineering Experiment Station, the Industrial Development Center and the International Cooperation Center. It has a faculty of approximately 680 of which more than one-fourth are in full-time extension activities or research.

Bachelor's degrees are offered in agric. business, agric. education, agric. production, agric. science, agric. engineering, chemical engineering, civil engineering, construction technology, electrical engineering, engineering science, industrial arts, industrial engineering, mechanical engineering, mechanical technology, English, history, botany, chemistry, earth sciences, economics, entomology, fish and wildlife management, general studies, mathematics, microbiology, physics, pre-med, psychology, zoology, architecture, art, commerce, elementary education, film and TV production, home economics, nursing, physical education and secondary education.

MONTANA COLLEGE OF MINERAL SCIENCE AND TECHNOLOGY.
Butte

Edwin G. Koch, President
Milton W. Brown, Registrar

Montana College of Mineral Science and Technology opened its doors September 11, 1900. Today it has an enrollment of approximately 600 students and graduates of the School are widely sought for their professional skills. Students come from all states and many foreign countries. The campus is located on a high terrace at the foot of Big Butte mountain and overlooks the City of Butte. Students receive part of their laboratory training in the deep mine shafts that pierce the Butte hill and in the Berkely open-pit mining operation and the newly developed concentrator plant. In addition, the Montana Bureau of Mines and Geology is located on the campus. Much basic research is accomplished by this agency in the fields of metallic and non-metallic minerals, fuels, and ground water. A Mineral Museum and Seismograph Station are also located on the campus.

The Montana College of Mineral Science and Technology has a major function to prepare students for professional service in mining, metallurgy, mineral dressing, geology, petroleum, geophysics. Bachelor of Science degrees are awarded in nine engineering career fields and graduate programs are authorized for eight fields. Non-engineering students can complete one or more years of general college work and credits may be fully transferred to other schools.

WESTERN MONTANA COLLEGE, Dillon

James E. Short, President
Paul O. Picton, Registrar

Western Montana College opened as the State Normal School on September 7, 1897. Approximately 850 students are enrolled today. Western Montana College is located at Dillon, Montana in the beautiful Beaverhead Valley, a center of ranching and mining activities. Located close to the continental divide, the winters are pleasant and the summers delightful. Dillon provides a wholesome small town environment, yet serves many cultural needs. Recreational areas provide facilities for excellent fishing, golfing, hunting, skiing, hikes, picnics, horseback riding and nature study. The College is located on a campus of 31 acres and contains 12 main buildings, including residence halls for the students.

The primary objective of the school is the instruction and training of teachers of all grades and departments. Bachelor of Science degrees in elementary and secondary education are granted as well as the Master's Degree in education. In addition, Western offers one and two years of general college and pre-professional curricula for those preparing for fields other than teaching.

EASTERN MONTANA COLLEGE, Billings

Stanley J. Heywood, President
Charles E. Kittock, Registrar

Eastern Montana College was established by the Legislative Assembly of 1927. Primarily a teacher training institution, it has an enrollment of approximately 2700 students. Eastern Montana College is located just below the 400-hundred foot sandstone cliffs known as the Rimrocks on the northern rim of the fertile Yellowstone Valley. Billings is a city of 75,000 with excellent transportation facilities, many cultural and sport activities and an invigorating climate with mild winters. The picturesque campus contains nine main buildings, most of which have been completed in recent years.

Eastern's instructional program includes a Division of Education, designed for the training of elementary and secondary teachers and the Division of Academic Studies which includes the sub-divisions of humanities, science and social studies. There is a graduate program which grants Master's Degrees in elementary education. A Liberal Arts program is also included in the course of study. Pre-professional programs are available in the fields of business administration, law, social work, clerical and secretarial business, pre-med and many areas of the sciences. Other facilities include an adult education program, Montana State Mental Hygiene Clinic, Campus Special Education classes, Montana Center for Cerebral Palsey and Handicapped Children and special programs for mentally retarded children.

NORTHERN MONTANA COLLEGE, Havre

Joseph R. Crowley, President

Northern Montana College was opened to students in September, 1929. It has grown to an institution of more than 1200 students and serves a tremendous geographic area in the northern part of the state. The College is located at Havre, Montana, a city of 11,000 in a vast cattle ranching and wheat raising area. It is easily accessible by main highways and is on the main line of the Great Northern Railroad. It is within a short driving distance of Glacier National Park. The campus is located on 105 acres adjoining the City of Havre and includes 17 buildings, plus several in the construction or planning stage. There are more than sixty faculty members on the instructional and administrative staff.

The four-year degree programs are in the field of teacher education only, but associate degrees in the engineering technology programs and the two-year nursing program are offered. Two years of basic studies are offered for a large group of pre-professional careers and terminal courses, including general, legal and medical secretarial science programs. In vocational-technical terminal studies, Northern fulfills the unique distinction of serving the entire state of Montana as the only school in the state offering that type of college work. This program includes courses in agricultural technology, automotive mechanics, cosmetology, diesel technology, drafting, electrical technology, electronics, merchandising and practical nursing.

STUDENT ACTIVITIES

There is a Student Union Center located on each of the campuses of the six units of the Montana University System. Much of the extra-curricular life of the student revolves around these centers which contain organization and conference rooms, ball rooms, dining areas and coffee shops, lounges, bowling alleys and other recreational facilities. There are many honorary organizations serving the various campuses such as Spurs, Fangs, and Associated Women Students. Recreational activities, particularly out-of-doors, are unlimited and social organizations include swimming clubs, rodeo clubs, mountaineers, ski clubs, pep clubs, singing and other musical groups and organizations connected with the churches. Many departments sponsor their individual organizations such as foreign language clubs, American Chemical Society, art clubs, Pre-Med Clubs, Student Education Associations, drama clubs, etc. Honorary organizations for various departments and fields of study are also found on the campuses.

Athletics are a part of every campus and many outstanding teams have been developed as well as individual athletes. Football, basketball, baseball, track and cross country, wrestling, skiing, swimming, tennis and golf are included in the athletic programs of the various campuses. Intramural athletics are also stressed as well as many activities for women students.

Sorority and Fraternity houses are located on or near the campuses of the University of Montana at Missoula and Montana State University at Bozeman.

High scholastic attainment is stressed at all campuses and many scholarships and awards are available to the student who distinguishes himself in this area.
